2/25/98

Dear Hal,

I thought the Ray material might interest you. Facing certain death, one would hope Ray might tell the truth. Having read his two books, I came away with the feeling he was involved in a conspiracy.

Hal, you spent time with this guy. Do you believe his story about the Canadian identities? I don't!

I don't have the technical ability to evaluate Dr. Mantik's articles but I don't believe J. F. K. autopsy

X-rays were Borged.

Sincerely,
Ed Williams
